

Introduction to

Provide the best entertainment for your customers.

Business StreamTV is a streaming app that delivers cable TV directly to your business via the Internet. Your business will enjoy the same benefits as traditional cable TV, with lower equipment costs and a smoother user experience.

StreamTV does not affect your Internet data allowance!

FEATURES INCLUDE:

- Up to 10 concurrent streams
- Up to 5 user profiles
- Up to 500 DVR hours*
- Pause and rewind† live TV
- 72-hour look-back/catch-up†
- Start-over
- Full cable lineup available**
- Bulk Channels available†† (Bally Sports, etc.)
- Stingray Music***

IT'S EASY TO WATCH TV

Logging in is simple: sign in once using your myBuckeye credentials and then watch live TV or your recorded content. Business StreamTV also remembers what channel you were watching when you turn the TV off. It will be ready for you when you turn the TV back on and you won't have to sign in again. If you have more than one TV, you can manage them all from one account and one login—no need to remember multiple user names and passwords!

* Due to programming restrictions, some content is not available off-network

† Availability varies, depending on channel

** Premium channels and pay-per-view not available

†† À la carte rates apply

*** For an additional monthly fee

SUPPORTED DEVICES

You may rent a streaming device from Buckeye Broadband or you may use your own device. Visit BuckeyeBroadband.com/BusinessTV to see a list of supported customer-owned devices.

SYSTEM REQUIREMENTS

- Buckeye Broadband Business Internet at 50–1,000 Mbps
 - If your business has high amounts of online activity, speeds in the higher range are recommended to improve overall performance
- Local 30+ cable TV package

ADD-ONS

The base package includes 3 streams and 100 DVR hours, but we can customize your package with add-ons:

- Add 7-stream bundle (MAXIMUM OF 10 TOTAL)
- Add 50 DVR hours (MAXIMUM OF 500 TOTAL)

PREMIUM CUSTOMER CARE

With Buckeye Broadband Business, we're on your team—helping you every step of the way. Your personal Account Executive will conduct a detailed site analysis to thoroughly understand your unique needs. We help you understand every connected point within your business, even point-of-sales systems, security systems, laptops, workstations, wireless printers, and more. We'll make sure you have the proper Internet speed, programming, and connectivity you need to keep your business connected when it counts.
